

PRESS RELEASE

No: 483/2016

Date: 16th September 2016

Airport Fire and Rescue Driver Training

The Airport Fire & Rescue Service is currently carrying out Emergency Response Driver Training for its new drivers. From Monday 19th to Wednesday 21st September, new drivers will undergo practical training on Gibraltar's roads so the public are likely to see and hear Fire Trucks making use of their blue lights and two-tone horns.

The Fire Trucks will only use approved roads and they will not exceed the speed limits. Peak traffic times will be avoided.

Members of the public are asked not to be alarmed by these sights and sounds.
