

## PRESS RELEASE

No: 231/2020

Date: 26th March 2020

---

### **Donations from across the community**

HM Government of Gibraltar has expressed its deep appreciation for the many donations being made to the GHA for the provision of medical equipment to combat the Covid 19 pandemic. These donations are being made from across the community and demonstrate the coming together of individuals, firms and friends of Gibraltar from further afield at this challenging time.

Today, one of our Gaming firms MANSION, has made a substantial donation which the GHA is currently actively working with to acquire further equipment. The Gaming sector are an important sector in our economy and their generosity at this moment in time is most welcome.

“This is yet another tangible example of how the Gaming sector has become such an important part of our community. My sincere thanks to CEO Karel Manasco and the entire team at Mansion for this most generous support in our time of need” commented Minister for Gaming Albert Isola.

The Hon Fabian Picardo, Chief Minister said “I will be thanking each and every individual or firm that has supported our efforts to fight this pandemic, as we owe each and every one a debt of gratitude. There is no limit to the generosity of our people and this most substantial donation by Mansion is a great example of our Gaming sector giving back to the community which of course is greatly appreciated”
