

PRESS RELEASE

No: 759/2020

Date: 29th October 2020

COVID-19 restrictions on organised entertainment

We are entering a time of the year when people tend to come together to socialise and celebrate. The public are reminded that due to the increase of community transmission of COVID-19, restrictions will apply to organised entertainment in general.

As per the permit conditions issued by the Director of Public Health, Restaurants, Bars and Cafeterias are not allowed to host any ticketed or any other type of organised event at their establishment. They must also ensure that social distancing guidelines are not compromised and that there is strict adherence to all of their permit conditions. Failure to comply with the conditions of permit puts the establishment at risk of the permit being suspended, revoked and / or fined.

Establishments are advised that before advertising or publicising any information on the use of their establishment, they must ensure that they abide by the permit conditions. Advice is available from the Office of Civil Contingencies by emailing: covidpermits@gibraltar.gov.gi.
